

EFI® Fiery® System 8e Network Server WorkCentre® 7328 / 7335 / 7345 / 7346

When you add an EFI™ Fiery System 8e® network server to the WorkCentre 7300 series multifunction device, enabled users have access to powerful printing workflows that deliver exceptional color, productivity, flexibility and security.

World-class color

Ideal for any business that wants to take its in-house design capabilities to a new level, the EFI network server includes a wealth of easy-to-use color management tools that enable unmatched color quality from all applications, platforms and formats.

- True 600 x 600 x 8 dpi print resolution for outstanding detail and clarity.
- PANTONE® Color Calibrated certification ensures you get precise colors, every time.
- Fiery ColorWise® offers standard-setting color tools and user flexibility.

Superior workflows

Powerful productivity features and workflow tools further enhance your printing capabilities.

- A 2.8 GHz processor and 512 MB memory deliver the power to handle even the most complex print jobs.
- Command WorkStation® via PC or Mac, with Queue Management and Job Preview, makes it easy to program, monitor and manage your office workflows.
- Variable data printing capabilities enable you to customize your output to a target audience.
- The Fiery RIP-and-Print utility streamlines the print-job processing workflow in office environments.
