Xerox Green World Alliance

Product take-back list

Over the last twenty years our supplies recycling programs have kept millions of pounds of waste out of landfills. As part of our continued commitment to environmentally responsible business practices, Xerox has made significant improvements to our returns and recycling programs.

Overview

Significant work has been conducted to look at the impact to the environment and the value of bringing each used item back for processing individually. The items listed here and on the website today are those items for which Xerox will pay the individual return shipping and processing costs.

Xerox encourages you to recycle items not on the “take back” list locally. Some products, identified as number 2 plastics, may be recycled in your local mixed plastic stream. If you are at a business location with an industrial recycling program, then a wider range of items may be recycled through that program.

Supplies used in our products are also designed for safe local disposal. Please contact your Municipal Waste Service or Industrial Recycling Provider for more information as programs vary. Alternatively, items not on the take back list can also be returned to our authorized recycling partner and Xerox will pay the processing fees associated with the asset recovery while the customer pays the shipping charges to return the items.

How do I locate my part number?

The part number (or SKU number) of a customer replaceable supply item is an alpha numeric code typically containing an “R.”

To locate this number please review the panels on the carton as the number usually occurs on two or more panels. In most cases, the number will be located on the bottom right side of the panel below the Xerox logo.

How to return items

Items can be returned to the Xerox Authorized Recycling partner at the following address:

Xerox Recycling
2051 Meridian Place Building 3
Hebron, KY. 41048

As an alternative to returning items individually, Xerox encourages use of the pre-paid Eco Box or Bulk Returns program as an economical way to return all of your used Xerox Genuine Supply items found on the take-back list for recycling.

For more information on the Eco Box or Bulk Returns Program, please visit www.xerox.com/gwa
