# Xerox® Integrated Copy/Print Server

for the Xerox® D95A/D110/D125 Copier/Printer

With the state-of-the-art Xerox® Integrated Copy/Print Server, the Xerox® D95A/110/125 Copier/Printer delivers a portfolio of the industry's most innovative features and capabilities. You'll get a simple workflow with an easy-to-use touch screen, FreeFlow® integration, excellent features and a small footprint.

- **Ease of use.** Straightforward graphic user interface is rich in easily accessible features with large 10.4 inch full color touch screen.

- **Superior scanning.** Create text-searchable files at the device for easy retrieval—compression technology reduces network load for fast transmission.

- **Remotely manage your device.** Xerox® CentreWare® Software IS Embedded Web Server automates installation, troubleshooting feature set-up and upgrading.

- **Multiple Sets of Copies with Separators.** Make multiple collated or uncollated sets separated by slip sheets for efficient distribution.

- **Security.** A large set of security features is packed into one compact device, including Secure Print, data encryption/overwrite capabilities and optional removable hard drives.

- **Copy and Save/Print and Delete Modes.** Select "copy and save" on the touch screen and, as you copy, document images and settings are saved to a mailbox/folder on the internal server.

- **Thumbnail Preview.** See a thumbnail view of your copy/scan job right at the touch screen.

- **Bates Stamping.** Built-in Bates Stamping feature generates copies with customized alpha-numeric descriptors on each page.

- **Extensible Interface Platform®.** This is a software platform that allows productivity-enhancing solutions to be easily accessed right at the copier/printer's touch screen interface. Learn more about our many solutions offerings by visiting **www.xerox.com/software-solutions**.

- **Exception page programming.** Easy programming of your jobs right at your PC or MAC® print driver, for example, color covers and inserts, tabs and Z-folds.
