

Xerox® EX 280 Print Server Powered by Fiery® v2.1

SPECIFICATIONS

Build a more profitable future with the Xerox® Versant® 280 Press and an easy-to-use, powerful digital front end that delivers outstanding quality and best-in-class performance.

MORE HIGH-VALUE JOBS, FASTER

Meet critical customer turnaround times and increase production capacity with the EX 280 Print Server, which processes jobs more than twice as fast compared to the EX-i 280 Print Server.

GET OUTSTANDING COLOR EVERY TIME

Fiery Edge profiles deliver stunning color with the smoothest color blends, maximum shadow details, and superb image definition.

Fiery Ultra Smooth Gradients combines 10-bit architecture and special processing to deliver stunning, smooth gradients that will delight your customers by printing with the true appearance designers intended.

MORE FINISHED JOBS IN LESS TIME

Reduce setup time and cut waste with Fiery JobExpert™ — a built-in feature in Fiery Command WorkStation® — that automatically analyzes incoming PDF files and dynamically chooses optimal Fiery print settings.

The included Fiery Impose simplifies layout work with intuitive, visual document imposition. You can even integrate with offline finishers to automate processes from prepress to finishing, reducing job setup time by up to 70%.

BOOST PROFITS WITH PERSONALIZATION

The EX 280 Print Server supports all variable data printing (VDP) formats. Or use Fiery FreeForm™ Create, an included application that allows you to quickly and simply create personalized jobs for print production. Add variable elements such as text, images, or barcodes with just a few clicks.

MORE PERFORMANCE AND PRODUCTIVITY

The Performance Package option, a combination of EFI and Xerox software and hardware, integrates powerful tools designed for professional production environments to achieve the highest color consistency and precision, streamline job preparation, and achieve maximum productivity.
