The color expert.
Office ready.

Xerox® Phaser® 7500 Color Printer

Give your entire office professional-level color. Now there's a network-ready printer that's robust enough to handle short-run professional-quality print jobs, yet easy enough to fit right into your busy office. Inspired color control features and printer management tools simplify printing and give you the power to do more than ever before.

On-demand Productivity

Save big when you bring your workgroup's diverse and high-volume color printing in house. The Phaser 7500 sports plenty of features that make it a perfect fit for the office on-demand print environment.

- **Fast 35 ppm color printing.** That means 100 copies of your 20-page color report will print during your lunch hour. The high-speed 1 GHz processor ensures that both long print runs and complex jobs with graphics, photos or charts process rapidly.
- **Networked to share.** Gigabit Ethernet is standard, and everyone, regardless of environment – Microsoft Windows®, Apple Macintosh® and Linux® – can tap into the power of the Phaser 7500.
- **Increase accountability and reduce costs.** Use accounting features to track and analyze both color and black-only printing, and to accurately charge back billing for individuals or departments.
- **Convenient and resourceful.** Sized to fit your workgroup's space and printing needs, it's available as a low-profile desktop printer, or it can be configured into a highly productive floor-standing model with three additional 500-sheet trays that can load paper sizes up to 13 x 18 in.
- **Bring more types of jobs in house.** Produce professional-looking brochures, newsletters and reports with features such as automatic two-sided printing, booklet printing and collation. Print on an array of media, including labels and card stock, and sizes up to 47 in. banners.

Quality Color You Can Count On.

Produce brilliant, accurate color right "out of the box." The Phaser 7500 printer delivers the tools to make you look like a color expert.

- **1200 x 1200 dpi resolution** for sharp, detailed prints.
- **So precise,** the color you're matching does exactly what you expect – it matches. The secret? It uses the tools of the pros: True Adobe® PostScript® 3™ ensures that visually rich documents print reliably and fast, while Pantone®-approved color tables make sure that specified colors print accurately and consistently.
- **Xerox® EA Toner** produces the smallest toner particles in the market – for finer lines, higher contrast and sharper quality. EA toner also requires less energy to manufacture and reduces the amount of toner needed for printing each page.
- **A powerful color technology** works behind the scenes to automatically give you the best color for each element on the page. Use it to select automatic presets to match a specific target, like a press or your computer screen. Or get creative and use it to fine-tune color and get special effects without changing your file.
- **Expert-level tools are built in,** including the Black Trapping feature, which keeps text sharp and readable whether printed in black on colored backgrounds or in color on black backgrounds.

Color By Words: Unique Color Control

Have you ever wanted to change the color of one object or area in a printout without affecting the rest of the page? With this feature there is no need to go back to square one and manipulate source files. You simply select the desired color modifications from a drop-down list, and Color By Words will adjust your printout.

Original photo not right? Use the Color By Words drop-down lists and choose "yellow-green colors a lot more green," and "red colors a lot more saturated." Picture-perfect results.

Simple to Use, Easy to Manage

Running complex jobs doesn't have to be complicated. The Xerox® Phaser® 7500 offers superior printer management capabilities and innovative features that make it especially easy to use.

- **Effortless printer management** with Xerox® CentreWare® Internet Services embedded web server. Save time with configuration cloning and automatic installation. View job status and troubleshoot right from your web browser.
- **The easy-open access is right up front;** no need to rotate or move the printer to perform routine maintenance like changing toner and adding paper.
- **Bi-directional communication** provides updates on your print jobs, along with toner supply levels, from the front panel, your desktop or even over the web. Pop-up alerts immediately notify you of any print problems – and how to fix them.
- **Store frequently printed files** on the built-in hard drive (standard on 7500DX) for fast, easy, walk-up reprinting. The Print With feature lets you include a stored file with your new print job.

- 1 100-sheet Tray 1 (multipurpose tray) feeds a wide range of custom-size media all the way up to 12.6 x 47 in. banner sheets.
- 2 500-sheet main tray supports paper sizes up to 11.7 x 17 in.
- 3 1,500-sheet Feeder includes three trays that support paper sizes up to 13 x 18 in. and boosts total paper capacity to 2,100 sheets.
- 4 Automatic two-sided printing for convenient, paper saving output.
- 5 Optional wheeled stand provides storage for a complete set of toner cartridges (shown below).

Advanced Security

- **Worry-free deployment.** Powerful tools let you control who prints in color, and when.
- **Private data stays secure.** Secure Print holds the job in the queue until a PIN is entered at the printer, and Hard Drive Overwrite “shred” data after every job or on request.
- **A good network citizen.** Built-in support for the latest security protocols including IPv6, 802.1X and IPsec.
