Build profit potential by keeping more of your print work in-house.

Looking for professional-quality colour?

The Xerox® VersaLink® C9000 Colour Printer delivers the superior colour imaging technology and professional colour management tools that ensure consistent colour matching print after tabloid-size print. You'll be able to save time and money by producing more of your customer-facing collateral in-house.

- **True 1200 x 2400 dpi.** The Xerox® VersaLink® C9000 Colour Printer's high print resolution enables production of realistic-looking photos, presentation-quality images and graphics and fine-line detail that makes for sharp text, even in small fonts.
- **The colours you expect, with reliable accuracy.** PANTONE® calibrated solid-colour simulations work in concert with Xerox® Colour Correction technology and true Adobe® PostScript® 3™ to deliver results that always match your expectations.
- **Seeing is believing.** You'll hit your colour targets with vivid images, rich and deep blacks and smooth colour transitions that have no streaking, banding or striping. Clients and prospects alike will be impressed by output that matches what they would get from a professional print shop.
- **No-compromise colour matching.** Combining incredibly powerful software with the Xerox® Precise Colour Meter powered by X-Rite, the Xerox® Precise Colour Management System adds professional-level colour control and helps maintain colour accuracy print after print, and across all output devices.

Reach new levels of accuracy with Xerox® Precise Colour Management System.

For graphic artists and colour professionals, colour matching is a critical task. The Xerox® Precise Colour Management System adds critical colour control capability through the combination of powerful software and the Xerox® Precise Colour Meter powered by X-Rite.

- **Keep colours perfect.** Environmental conditions, such as temperature and humidity, affect a printer's ability to produce consistently accurate colour. The Xerox® Precise Colour Management System quickly returns your printer to its factory-new settings.
- **Emulate other devices.** Use the Xerox® Precise Colour Management System to create custom colour sets that emulate larger press equipment, allowing in-house creation of prepress proofs. With our system, you can quickly set/reset saved colour profiles to keep your workflows efficient.
- **Measure colours precisely.** Powered by industry-leader X-Rite, the Xerox® Precise Colour Meter measurement device calibrates your monitor and the VersaLink® C9000 to match colours from swatch books or colour tables, ensuring accurately matched screen-to-print colours. (Included with Xerox® Precise Colour Management System.)
- **Perfect your spot colours.** Xerox® Precise Colour Management System not only allows fine-tuning of existing spot colours, but new, unique spot colours can be created for your colour proofs.

Advanced finishing options and broad media flexibility transform digital dreams to physical reality.

With the Xerox® VersaLink® C9000 Colour Printer, you can create finished pieces on a wide range of media to match the designer’s intent.

YOUR DESIGN ASSISTANT

Your design team wants to do more than just print. They want to produce elegant invitations, attention-getting posters, memorable booklets and high-performance direct mail. You can count on the Xerox® VersaLink® C9000 Colour Printer to help them create these and other high-value print pieces. They can choose media in weights from 75 to 350 gsm and sizes from 3.5 x 3.9 inches to 12.6 x 52 inches. And a range of advanced finishing devices enables automated production of booklets, brochures, proposals, newsletters, manuals, reports, business cards, packaging, signage, window decals, point-of-sale materials and more.

350gsm

93 lb Bond, 236 lb Text, 130 lb Cover, 215 lb Tag, 194 lb Index, 160 lb Bristol, 350 gsm. However you measure your paperweight, the VersaLink® C9000 can print on it.
